THE VICE STREET INVICORATING CORDIAL

FOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c.—The astonishing success which has attended this invaluable medieine, for Loss of Muscular Energy, Physical Lassitude, and
General Prostration, or any of the consequences of youthful
indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation over discovered.
In fact, as a remedy for the above complaints, it stands unrivalled and alone. There is no other reliable remedy, or hrvalled and alone. There is no other reliable remedy, on that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe as well as by eminent Physicians in this country, only infallible remedy for NERVOUS, HEAD, and COMPLAINTS—the mental physic so long sought only infallible remedy for NERVOUS, HEAD, and MINI COMPLAINTS—the mental physic so long sought for an nover before found—the only agent that can administer a MIND DISEASES. It will remove all nervous affections DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONPUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by sensual Excesses or evil practices. It has been said by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORGESS. however, is not the fact.
MORSE'S INVIGORATING CORDIAL has cured

is constantly curing, these complaints—relieving the stal and bodily incapacity of the unfortunate sufferer, a following testimony of the names received will conclu-

mental and bodily incapacity of the unfortunate safferer, as the following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Massachusetts Insane Hospital, writes of bne of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He teils me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "It thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it, whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The propristor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS
have not, in a single instance that has been authenticated, given their sanction to any other preparation for the above

have not, in a single instance that has been authenticated, given their asnetion to any other preparation for the above complaints. It has, in many violent and desperate cases, effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION of these who have used this Expect is all had been abandoned.

THE COMMON EXPRESSION of those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the saxe purpose, different Sarsparalliss,) without deriving any benefit. I had simpet given up all hope of obtaining relief, when I purchased some of your Cordial. I had no faith whatever of its benefiting me—but it has. I feel stronger, have had no emissions since, although it is not three weeks. I am satisfied that the balf a dozen bottles I took will gure me."

took will cure me."

Another says: "I had consulted several distinguished physicians. Some said I could not be cured; others prescribed this thing and that; but I found no relief until I procured some of your Cordial. I must say it completely considered."

procured some of your Corust. I must say it completely cured me.

Another says: "I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, busides years of mental and bodily suffering."
CAUTION.—Ask for Dr. More's Cordial, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not burt the most delicate female, but do good. Beware of all other Cordinis, &c., and try only this. It is put up in pint bottles, with the words Dr. MORSE'S INVIGORATING CORDIAL blown on the glass. Price \$3 per bottle; two bottles, \$5; six bottles, \$12; and \$24 per dosen.

DR. JOHNSTON
PROCLAIMS TO THE AFFLICTED
That he has discovered the most certain, speedy an cious plan of treating
SECRET DISEASES

that has ever yet been presented to the world. By his plan founded on observation made in the Hospitals of Europe founded on observation made in founded on observation made and America, he will insure A CURE IN TWO DAYS, OR NO CHARGE.

ACURE IN TWO DAYS,

No Mercury or Naussous Drugs used.

Weakness, Loss of Organic Powers, Pains in the Loins,
Disease of the Kidneys, Affections of the Head, Throat, Nose
and Skin, Constitutional Debility, and all those horrid affections arising from a Certain Secret Habit of Youth, that solitary practice, more fittal to its victims than the song of the
Syrens to the mariners of Ulysses—blighting their most
brilliant hopes or anticipations, rendering Marriage, etc.,
impossible.

brilliant hopes or anticipations, rendering Marriage, etc., impossible.

A CURE WARRANTED, OR NO CHARGE.

Young Men especially, who have become the victims of Selitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Office, No. 7 Scallb Frederick sirset, Beitimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistake the place.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospituls of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE. TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solidary habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dinness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Eervous Irritability, Derangement of the Digestive Functions, General Dublity, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Heas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the swils produced.

Love of Solitude, Timidity, &c., are some of the sylls produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and duardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepda, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ormaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR OR-GANIO WEAKNESS.

GANIO WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most doblitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misquided youths been made, who have been suddenly restored to health from the devastations of those territic maladies which result from indiscretion! Buch persons, before contemplating

MARRIAGE, should reflect that a sound mind and bedy are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becames shadowed with despair, and filled with the metametholy reflection that the happiness of another becomes blighted with our own. Let no hase delicacy prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentieman, and confidently rely upon his skill as a Physician.

He who places himself under the care of Dr. Johnston may religiously coulde in his honor as a Gentieman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guara 1ty, that the afflicted will find a skilful and honorable physician.

TAKE NOTICE.

guara 11, that the afflicted will find a skilful and bonorable physician.

TAKE NOTICE.

It is with the greatest reductance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise; but unless the did so; the afflicted, especially strangers, could not fail to fall into the hands of those imprudent, boasting impostors—individuals destitute of knowledge, name, and character—pedlars, shoemakers, mechanies, &c. advertising themselves as physicians; ignorant quacks, who keep you trifting month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for healons our cure you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office.

Weakness of the Organs immediately cured, and full vigor restored.

rigor restored.

KRAUSER'S PATENT CLOVER-SEED HARVESTER

IS BEFORE THE PUBLIC FOR THE FIRST TIME!

I'S utility is beyond comparison with any other farming Implement now in use. It takes the seed from the field, leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers from ten to twelve acres per day. The fingers, or teeth, catch all the heads, the revolving knives cut them off and throw them back into the box, which will cross a twenty-acre field without emptying. The heads are then loaded into a wagon and taken directly to the mill for cleaning, thus diminishing the labor three-fourths, and saving all the seed. This machine comes so low that every farmer will have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

We, the undersigned, do certify that we have seen Mr. September 4, 1851.

We, the undersigned, do certify that we have seen Mr. Krauser's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of the farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given one-half for gathering and threshing.

Long-a-Coming, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of catile, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

KRAUSER'S PATENT CLOVER-SEED HARVESTER.—
We have conversed with a number of Farmers, and they are
of opinion that there are at least 3,000 acres in each township in Camden or Gloucester county, New Jersey. Admitting there are but 1,000, it is said that each acre will yield
from 1/2 to 3 bushels. Reducing it to a certainty of yielding
but 1 bushel per acre, what will it cost to gather and thresh
1,000 acres?
This Harvester will gather 12 acres per day. At
8 acres per day, it will take 5 harvesters 25 days,
at a cost of \$150

Perhaps no invention offers greater inducements for a prefitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of money could without doubt be realized from the sale of rights in the different States of the Union not yet disposed of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better or more money-paying basiness.

Those who wish to see a model of this celebrated farming implement, and the satisfactory manner in which it operates, can do so by calling at E. WHELLER'S.

AMERICAN TELEGRAPH

The Eloquence of the Sidewalk and of We clip the following from the Republic of this

morning: "ANOTHER DISTURBANCE. -The neighborhood of the old railroad depot having been selected by the itinerant lecturers on temperance on Sabbath days, the scene of the previous Sabbath was repeated yesterday, in efforts to expel the lecturers from the front of places where liquor is sold on Pennsylvania avenue. As these cases will be made matters of legal investigation and trial in our courts, we forbear making any comments

upon them. The above, we are assured by persons present, is erroneous. No disturbance can be said to have occurred yesterday. The temperance speakers took position in front of a house occupied by a friend of temperance on Pennsylvania avenue. This house is flanked by two drinking houses. Mr. Savage was charged (by some of the friends, or victims, of these houses, it is said) with being 'afraid to come in front of them!" He answered that he was not afraid, but that he did not go or come upon the street to create any disturbance on the Sabbath; that his business was rality, the formation of virtuous habits, the presto promote peace among all men. The meeting terminated with the enrolment of a name or two

upon the catalogue of temperance men. The opinion of Judge Parsons, of Philadelphia, as to the right of the occupant of a house to forcibly compel a person from his sidewalk, has been referred to of late, in connexion with this subject, and will soon undergo the revision of our own court. This right is one of great importance, and we hope the public mind may become fully established in relation to it.

One opinion expressed by Judge Parsons has been thus stated by the Rev. John Chambers in public address :

"A dealer in liquor was tried for some crime, convicted and sentenced by Judge Parsons. The next day a lawyer waited upon the judge and told him he could show a defect in the proceedings wherefore the man should be released. Ob, said the judge, 'that matter's settled. 'But, said the lawyer, 'he is a worthy man.' 'A worthy man!' said the judge, 'and make drunkards?' 'But,' said the lawyer, 'he is a good citizen.' A good citizen, said the judge, and fill up our jails and almshouses, and cause men to commit murder and arson, and every iniquity? That question's settled, sir, and the man must abide

Chief Justice Cranch has also expressed an

ppinion of some pertinence: "I know that the cup is poisoned; I know that t may cause death, that it may cause more than leath-that it may lead to crime, to sin, to the ortures of everlasting remorse. Am I not then a murderer? Am I not worse than a murdereras much worse as the soul is better than the body? It ardent spirits were nothing but a deadly poison, if they did not inflame all the evil passions, if they did not dim that heavenly light which the Almighty has implanted in our bosoms to guide us through the obscure passages Holy Spirit in our hearts, they would be comparatively harmless. It is their moral effect, it is the ruin of the soul which they produce, that renders them so dreadful. The difference between death by simp'e poison and death by habitual intoxication may extend to the whole difference between everlasting happiness and eternal

death." These are hard and severe sayings; but they that must in this community receive all the encouragement and protection the law allows to it.

It has been fully and repeatedly demonstrated, y both practical and scientific men, that the agregate amount of industry in any community may be vastly increased by means of general and specific intellectual culture; that, in any given pursuit, trade, or occupation, the individual of nost varied information and accurate knowledge possesses decided advantages in the accumulation of wealth over all competitors less favored in this regard; and that the various avenues leading to regard; and that the various avenues leading to mercantile, manufacturing, or agricultural success may be far more profitably occupied by the educated than by the ignorant or the superficial.

subtlety, fraud, and craft? And what enables its possessor to enjoy and to use it with safety and profit? Is it not the power and the influence of a paternal government, securing the prevalence of good order throughout the community, establishing and maintaining just laws, affording adequate remedies for their violation, and watching over the welfare and safety of the humblest equally with the highest citizen of the com-monwealth? And has not the general diffusion of sound knowledge, the inculcation of pure moence and operation of a pervading sentiment of integrity, an undeniable tendency to render the possession and enjoyment of property more se-care, more valuable, more certain? Do they not immeasurably enhance its worth, encourage its acquisition, and ensure its profits? Is it not, moreover, within the personal experience of most business men that the pecuniary value of real estate especially is in a very great degree af-facted favorably or adversely by the presence or absence of an enlightened, orderly, and law-abi-ding neighborhood?

A few years since a circular letter was addressed by the Hon. Horace Mann, then Secretary of the Massachusetts Board of Education, to the principal and most experienced educators of different sections of the country, requesting their opinion as to the proportion of the rising generation, who, if placed between the ages of four and sixteen under the care and constant superintendence of teachers of the highest attainable grade of qualifications, could be so educated and trained as to "become useful and exemplary men-honest dealers, conscientious jurors, true witnesses, incorruptible voters or magistrates, good parents, good neighbors, good members of society; temperate, industrious, frugal, conscientions in all their dealings; prompt to pity and instruct ignorance, instead of ridiculing it and and taking advantage of it; public spirited, philanthropic, and observers of all things sacred." by the law.'
